THREE REASONS
Each With Two Legs and Ten Fingers.

A Boston woman who is a fond mother writes an amusing article about her experience feeding her boys.

Among other things she says: "Three chubby, rosy-cheeked boys, Bob, Jack and Dick, aged 4, 4 and 2 years, respectively, are three of our reasons for using and recommending the food, Grape-Nuts, for these youngsters have been fed on Grape-Nuts since infancy, and often between meals when other children would have been given candy."

"I gave a package of Grape-Nuts to a neighbor whose 3-year-old child was a weakened little thing. In half the time, the little tot ate the Grape-Nuts and cream greedily, and the mother continued the good work and it was not long before a truly wonderful change manifested itself in the child's face and body. The results were remarkable, even for Grape-Nuts."

"Both husband and I use Grape-Nuts every day and keep strong and well, and have three of the finest, healthiest boys you can find in a day's march."

Many mothers, instead of destroying the children's stomachs with candy and cake, give the youngsters a handful of Grape-Nuts when they are begging for something in the way of sweets. The result is soon shown in greatly increased health, strength and mental activity.

"There's a Reason."
